you.

Integration training online

Moving to Finland can be quite an experience. Adapting to something new takes time - we want to make the transition period and adapting to changes easier. Arffman's integration training online supports finding your own place in Finland. The goal is to survive in Finnish everyday life and make it possible to apply for work or studies. You learn a language online as effectively as in class. In live teaching, students also work in small groups and get to know each other.

HOME TRAINING WITH ARFFMAN

- Language teaching, main focus on spoken language
- Getting to know culture and society (e.g. periods of working life), supporting life management
- Personalized to match the participant's capabilities and abilities
- A functional way of working connected to the everyday life of the participants
- In addition to local expertise, Arffman's entire support, including e.g. Online material where you can find support for independent job searching in Finnish and English

WHY ONLINE?

- You can participate from anywhere on your own device
- Customization according to the needs of the participant, it is possible to assemble groups from a wider area (level groups and speed of progression)
- Real-time conversational contact teaching, a present teacher and your own study group
- The training corresponds to classroom teaching in terms of content and demands
- Enables revision and returning to previously studied topic
